EDUCATION

BS Computer Science

University of Lahore

2023-2027

CGPA: 3.56

CORE COURSES STUDIED

- Introduction to Information and Communication
- Programming Fundamentals
- Digital Logic Design
- Object Oriented Language
- Computer Organization and assembly language
- Theory of Automata
- Data Structures and Algorithms

About Me

I am a Computer Science student at the University of Lahore, having successfully completed four semesters. I possess a strong foundation in programming, data structures, and problem-solving. I am currently expanding my skills in Python and data analysis. I am eager to gain hands-on industry experience through an internship where I can contribute to real-world projects, grow professionally, and learn from experienced teams.

PROJECTS

Clinic Website – HTML/CSS

- Designed and developed a responsive website for a women's clinic, featuring patient registration and service details.

Inventory Management System – C++

- Built a console-based product inventory system using object-oriented programming in VS Code/Dev C++.

Logo & Marketing Design – Canva

- Created branding and promotional materials for academic and product-based projects.
